SPLIT ON FDR
SHIP PROGRAM

Congress Uncertain As To
How Far President
Will Go

(By Associated Press)
WASHINGTON, Sept. 29.—Con-
gress appeared convinced today that
President Roosevelt intended to re-
quest the power to arm merchant
shipping, but there was disagree-
ment as to whether he would seek
a further modification of the neu-
trality act so that American ves-
sels might operate to belligerent
ports or in waters now prohibited
as "combat areas."

Some legislative sources predicted
the President's forthcoming message
would limit itself to a request for
authority to put guns on merchant-
men, because any proposal for more
extensive revision would arouse
formidable opposition.

Britain's Bombers
Lash Italians In
War's Biggest Raid

Attack Four Cities On Mainland, Four In Sicily and
Blast at Island of Rhodes On North
African Coast

(By Associated Press)
ROME, Sept. 29.—The British air force launched the
biggest offensive of the war against Italy during the night,
bombing four cities on the Italian mainland and four in Sicily
as well as blasting at the island of Rhodes and the north
African coast, the Fascist high command announced today.

The raids on Italy and Sicily killed 11 persons and in-
jured 33, while 42 casualties were caused at Rhodes, where
bombs fell on a hospital and civilian residences, a com-
munique declared.

In addition, 10 persons were reported injured by splin-
ters from Italian anti-aircraft shells on the mainland and two
others were killed in traffic accidents—apparently the result
of blackouts.

The Italians said one British
raider was shot down over Italy
and four over north Africa, while
two others were reported destroyed
over the central Mediterranean by
Italian fighters.

Fascists Bomb Malta
The Fascist air force, meanwhile,
carried out another night attack
on the oft-bombed British Mediter-
ranean stronghold of Malta, the
high command declared.

The targets of the British bomb-
ers in Italy were Turin, Genoa,
Spezia and Savona Marina—all in
the north.

Nine persons were killed and 26
wounded in Palermo, Sicily, the
daily war bulletin declared, while
two were killed and seven injured
at Genova on the northwestern
coast of Italy, where five fire-
fighters were listed among the
casualties.

Four were reported injured by
anti-aircraft splinters at Spezia,
south of Genova, where the Italians
have a large naval base.

In Milan, industrial center in
northern Italy, six persons were
injured by anti-aircraft shells and
two persons were killed in blackout
accidents, but no bombs fell on the
city, the communique declared.

No Casualties Mentioned
One British plane was reported
shot down over Turin, also in
northern Italy, but the war bulletin
mentioned no casualties there. At
Savona Marina, also on the Italian
mainland, the raiders were said to
have damaged a number of resi-
dences and dropped propaganda
leaflets.

Raiders were said to have dropped
explosives and incendiaries on the
Sicilian towns of Trapani, Mar-
sala and Castel Vetranò as well as
Palermo, though no casualties were
mentioned at any of these places.
It was the second raid on Sicily in
as many nights.

Six Czech Leaders Killed,

London

(By Associated Press)
A rising tide of underground re-
volt—sabotage, strikes and the bat-
tle of terrorist gunfire in the dark-
placarded streets—has increased strain
today on the vast police army with
which warring Germany held in
check Europe's conquered millions.

From France, Belgium, The Neth-
erlands, Norway and dismembered
Czechoslovakia and Yugoslavia re-
ports rolled in steadily of men
striking back at their Nazi masters
despite reprisal executions, mass
arrests and states of civil siege.

Guard Set Up
Six districts of the Nazi pro-
tectorate of Bohemia and Moravia
were under the tight guard of a
state of civil emergency clamped
on to halt actions hostile to the
reich.

Within 24 hours after taking
over the post of reich's protector
of Bohemia and Moravia, Rein-
hard Heydrich, German secret po-
lice leader, arrested Gen. Alois
Elias, Czech premier, on charges of
premeditated high treason.

Measures Heydrich applied to
stamp out trouble were reported to
include summary executions, heavy
prison sentences, confiscation of
property, closing of public gather-
ing places and an early curfew.

The fugitive Czech government
in London reported six persons al-
ready had been executed under the
German order and said they in-
cluded Gen. Josef Bily, former
military commander of Bohemia,
and Gen. Hugo Vojta, deputy com-
mander of the seventh Czech army
corps at Bratislava.

Two Die In Paris
Two more men were disclosed to
have been put to death last Sat-
urday in Paris, where terrorism has
persisted despite firing squad exe-
cutions of a total of 27 persons.

The German military commander
announced that the two, Eugene
Devigne and Mohammed Moali,
were found in possession of for-
bidden weapons.

Aneta, Free Dutch news agency,
reported Netherlands citizens were
providing beacons to guide raiding
British bombers despite tightening
German police measures. Aneta
said arrests had increased but
smuggling and illicit trading in
food persisted, along with acts of
sabotage and anti-Nazi demon-
strations.

Dispatches last Saturday reported
the execution of 20 persons by the
German commander of occupational
forces in northern France and Bel-
gium in the wake of dynamite in-
cidents in which French and German
supply and troop trains were wrecked
near industrial Lille.

ASK BRIDGES'
DEPORTATION

Recommendation Is Made
By Inspector at San
Francisco Hearing

(By Associated Press)
WASHINGTON, Sept. 29.—De-
portation to his native Australia of
Harry Bridges, west coast CIO
leader, was recommended to Atty.
General Biddle today on the ground
that Bridges was a member of the
Communist party and that the
Communist party "advocates and
teaches the overthrow by force and
violence" of the United States gov-
ernment.

The recommendation was made
by Charles B. Sears, retired Buffalo,
N. Y., jurist, who presided as a
special immigration service in-
spector at a 10-week hearing in
San Francisco to determine whether
Bridges was deportable under the
immigration laws.

At the same time, Sears denied
a request by Bridges to reopen the
deportation case to hear evidence
that the FBI allegedly tapped the
wire of a New York hotel room in
which Bridges was staying after
the San Francisco hearing ended.

Sears held that after Bridges en-
tered the United States in April,
1920, he became a member of the
Communist party and the Marine
Workers Industrial union.

In his findings of fact with re-
spect to Bridges' membership in
these organizations, Sears held:
"That the Communist party of
the United States, from the time
of its inception in 1919 to the
present time, is an organization
that believes in, advises, advocates,
and teaches the overthrow by force
and violence of the government of
the United States."

SEEK CLUES IN
MILEY DEATH

Police Given Little to Work
On; Noted Woman Golf-
er Is Victim

(By Associated Press)
LEXINGTON, Ky., Sept. 29.—De-
tective Captain J. C. MacLean said
today that police, investigating the
hold-up slaying of Mrs. Miley,
27-year-old nationally famed golfer,
and the serious wounding of her
mother at the aristocratic Lexing-
ton Country club, were "stumped"
in their effort to bear down on
two masked thieves who shot the
women and escaped with \$135.

MacLean called the crime "prob-
ably the most sensational murder
case" on record in the bluegrass,
while Investigation Superintendent
Guy W. Maupin termed the trag-
edy "a plain case of robbery," possi-
bly committed by amateurs.

Miss Miley was shot through the
head and chest, and her mother,
Mrs. Fred Miley, 50, was hit three
times in the abdomen, after being
roused early yesterday morning by
two robbers at their country club
apartment, demanding location of
the money.

Mrs. Miley, club manager, stum-
bled through the darkened white-
columned building to a sanatorium
300 yards away from where police
were called. She was taken to a
hospital where the three slugs were
removed. She fell into a coma
shortly after giving police a sketchy
account of events.

Patrolman John Doyle, first to
reach Mrs. Miley's side, said she
told him she was awakened by the
robbers.

former Salem man, was injured fa-
tally in a collision of two automo-
biles at the junction of Routes 62
and 165 at 10:45 p. m. Saturday.

District traffic accounted for an-
other death when Gerald Sutherin,
19-year-old East Palestine pottery
worker, died of head injuries suf-
fered when his car overturned on
Route 14, one mile west of East
Palestine, the morning of Sept. 19.
He never regained consciousness.

ance, was killed Saturday night

Skull Fracture Fatal
A skull fracture was the cause of
death of Mr. Lieder, who was riding
in a machine operated by Michael
Greil, 33, of R. D. 1, Salem. State
Highway Patrolmen C. W. Cale and
L. L. Russell said that Greil, travel-
ing west on Route 165, failed to
stop for the main Route 62 high-
way and was struck by a north-
bound car driven by John P. Bryan,
37, of 820 E. Fifth st.

Bryan, a mill worker enroute to
his job in Youngstown, was unin-
jured.

Lieder was removed to the Cen-
tral Clinic where he died at 4:30
a. m. Sunday.

Greil suffered a broken collar-
bone, while Mrs. Greil received
bruises. Lieder's wife, Anna, 31, suf-
fered cuts about the face.

A similar accident at the scene
of the fatal mishap at 3 p. m. yester-
day involved automobiles driven
by Howard W. Stille, 37, of R. D. 2,
Diamond, and Dr. Archibald R.
Stone, 54, of Columbus, the state
patrol reported.

Stille was given a court citation
after his car, traveling west on

into the doctor's car, enroute south.
Stille was accompanied by his wife
and three children.

escaped injury, were Virginia Al-
lard of East Palestine, Mrs. Mary

Agnes, 48, and daughter, Helen,
29, escaped serious injuries at 5:30
a. m. Sunday on the Benton road. A
son, Edward, 12, was uninjured.

trolmen he lost control of his car
and that it upset. An ambulance
removed them to City hospital where
Mr. Gajewski was found to have
suffered an injury to his right side;
Mrs. Gajewski, a head injury and
Helen, a fractured right ankle.

COUNTY TAX LEVY

Down in East Liverpool the potters, through their Brotherhood organization, have endorsed the proposed two mill county tax levy for the support of welfare institutions, whereas the East Liverpool Chamber of Commerce has proclaimed its opposition to the levy. It is interesting to note, however, that the Chamber announced its position immediately after the county commissioners decided to place the issue before the voters at the November election; on the other hand the potters' endorsement came after they had had an opportunity to hear a full explanation of the need for such a levy.

Opposition on the part of the Chamber of Commerce is not likely to have much weight on voters throughout the county, largely because this organization has given no valid reason for opposing the levy. It is against a levy merely because it feels that some of the county offices could be operated more economically. It has not shown how a sufficient amount to take care of the deficit in welfare maintenance funds could be raised by cutting corners in courthouse expenditures. It would have a difficult time proving that point if it attempted to do so. It did some prowling around court house offices a year ago and the net result was to embarrass the county, and some municipalities, including Salem, in a financial way, Salem schools suffered, as did municipal funds, along with county funds. Most of the county officials did some pruning, but the total savings haven't been a drop in the bucket.

The trouble with these Chamber officials is that they do not recognize the increased burden placed upon most of the county offices by new state laws in recent years. They failed to recognize, also, that salaries of officials are fixed by law. They did reveal a few unusual expenditures on the part of the county but did not emphasize this so much as they did their desire to make retrenchments in office personnel and salaries. They merely left a state of utter confusion and did no appreciable amount of good. In view of the mess they stirred up, they aren't a very good position to oppose a tax levy which is intended to overcome a deficit in apparently legitimate operating funds for welfare organizations supported by the county.

County commissioners have been able to show that these funds will be some \$40,000 short this year, with no hope of meeting that deficit or continuing proper maintenance of the welfare institutions during the coming year unless a tax levy is approved. To date no one has been able to successfully refute their contentions, which are backed up by facts too apparent to be pleasant. The only mistake being made, so far as we can observe, is in calling the proposal a "charity" levy. These are welfare, rather than charity, organizations and institutions which the county maintains and they deserve all the support they have been given. They cannot continue to receive this support, however, unless the voters of Columbiana county approve the two mill tax levy at the November election. This issue deserves the wholehearted support of every voter in the county.

\$13,000,000,000 HOSE

Occasionally someone wonders how the money being spent on foreign war aid under the lease-lend act is going to be repaid. The answer is unpleasantly vague. It becomes no clearer as time goes on and the lease-lend total, which will be upward of \$13,000,000,000 when the latest request is granted, grows larger.

Unless congress, the treasury, the chief executive, or the state department comes through with a fuller explanation incidental to granting the latest request for approximately \$6,000,000,000 to be added to the original appropriation of \$7,000,000,000, the explanation will continue to look something like this:

Repayment of aid granted under the lease-lend act is entirely up to the chief executive; the act specifies nothing. In his annual message to congress last January, President Roosevelt said: "For what we send abroad, we shall be repaid within a reasonable time following the close of hostilities—in similar materials or, at our option, in other goods of many kinds which they may produce and which we need."

In a press conference last December, Mr. Roosevelt explained his attitude on repayment like this: your neighbor's house catches fire, and you have a hose which can be connected to his hydrant to help put out the fire, you are glad to lend the hose. Say the hose cost \$15; you don't say, "Give me \$15 for the hose." All you want is that the hose be returned when the fire is out, with some repayment for the use of it. If it should be that part of the hose has been damaged, the neighbor will replace the damaged part.

The last time the neighbors borrowed the hose, nothing was left to chance. They were required to file certificates and sign notes. Everything was done up brown. But when the big wind had subsided, the United States had the notes and Europe had the hose. "Old Point Comfort in the situation today seems to be the certainty that with everything left to chance things can't possibly be worse than they were last time when nothing was left to chance."

PRINCIPAL SYMPTOM

Confusion continues to be the chief byproduct of communiques from the Russian front. It is virtually impossible to judge from official releases how the war is going which is the way the Nazis and Communists want it to be.

Russian counter-attacks, claimed in Soviet communiques and admitted in German communiques, are the principal symptom that the Red army is far from the fold-up stage which it was expected to reach long before this. An army that retains sufficient organization, morale and material to counter-attack still is formidable.

The German army, on the other hand, is doing everything possible to shatter the Russian army's formidableness before inclement weather slows up fighting operations. There still are from two to three weeks of probable fighting weather. If the Russians still are counter-attacking by the last week in October, it may reasonably be concluded that Germany has failed in its objective, which was to crush the Russian army in 1941.

THE STARS SAY:

For Tuesday, September 30

THE ASTRAL auguries for this day may be read as propitious. There are signs of promotion, preferment and favors from employers, superiors and those in authority. However, it would be well to adhere to established codes in order to avoid running counter to community or public interest. Some minor deceptions may occur and change in plans or environs may suddenly be found to be advantageous. Over-emotionalism or mental disturbance should be avoided.

If It Is Your Birthday

Those whose birthday it is on the whole may enjoy a prosperous and progressive year, with superiors and those in authority conferring favors or preferment. But subtle over-emotional behavior or mental agitation. Stick to conventional ways and means and all should be well. There may be indications of running counter to public opinion or group opposition. Changes are indicated.

A child born on this day should be versatile and find high favor with its superiors and employers, although being a bit temperamental.

As somebody once said, strange are the mutations of time. Which brings our present relations with Russia to mind. It is a happy thought that she abolished whiskers before we were called upon to kiss her.

The youngster, returning to school and resuming the study of geography, finds about the only thing that hasn't been changed is the shape of the earth, and there's a suspicious flatness developing on it.

"THE SAFE WAY TO REDUCE"

"Twenty Pounds Off by Christmas"—Dr. Clendening

BY LOGAN CLENDENING, M. D.

I give below a reducing diet for one—the first week. Other weeks diet lists will follow. If you want to lose twenty pounds by Christmas the easy way, start now. Do your Christmas cropping early.

Dr. Clendening will answer questions of general interest only, and then only through his column.

There are three fundamental principles of reducing which can not be escaped. There are the chronological, the metabolic, and the psychological.

The chronological—I do not believe any course in reducing is safe or practical unless it is planned to last at least three weeks. It has been found that if you go on a reducing diet for a few days, you do not lose much because of water retention. At the end of ten or twelve days, and again at about twenty-one days the tissues let go the water and the real reduction occurs.

Metabolic—All the protective elements of food—proteins, vitamins and minerals must be reduced.

Psychological—You must have persuaded yourself that you want to reduce enough to make the sacrifices. It is by no means easy. But when you begin to get results you will be rewarded. Don't cheat. A medical college breaks into song thus:

If carte de four your taste should lure

To foods that make you fret

Your belly gives the relatives

Questions and Answers

M. R.—"Could eyes that might have been strained through reading be exercised and treated so as to bring them back to the previous strength, so as to avoid wearing glasses?"

Answer: Reading never permanently strains the eyes. Eyes that are temporarily strained from excessive reading should be rested, not exercised. Exercises could never overcome astigmatism and other conditions which are relieved by glasses.

REDUCING THE EASY WAY

With this article, Dr. Clendening presents the first diet in a special three weeks' diet which will help you reduce the easy way. In this, and occasional explanatory, accompanying articles, he points out that there are three fundamental principles of reducing—the chronological, the metabolic, the psychological—which cannot be escaped if health and well-being is to be maintained, and the reducing regimen successful. The diet list published today gives foods for the first week, for daily selection. Tomorrow Dr. Clendening presents a metabolic chart listing the requirements of protective foods which must be taken no matter how much the general diet is reduced. Daily diet lists will follow.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp to Dr. Logan Clendening, 235 E. 45th st., New York. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

BARRED 7 SEVENS by MARYSE RUTLEDGE

SYNOPSIS

Aboard a ferry, enroute to visit his fiancée, Jane Rider, David Farland prevents an attractive young woman from jumping overboard. The hysterical girl entrusts him with an envelope, requesting that he deliver it to the socially prominent Richard Garrison, if she does not call for it within a week. Noting a couple watching them, the girl's eyes dilate with fear. "I know he wouldn't play fair!" she exclaims and dashes away, dropping a compact initialed "C. B." and a pamphlet entitled, "American Warning!" On the train, David discovers the envelope is missing from his pocket. At her home in Haverstraw, as Jane prepares to meet David, her thoughts go to Kurt Helm, the writer, who rented the old log cabin nearby. At first he had been fascinating, but now she had changed completely. "I shouldn't have come to this place," Kurt said. "Lean people living on fat lands, thinking of getting while the world blows up around them." Then he went on to mention to take Jane away from David. At the station, Jane is stunned to see David dash past her after a woman with terrified eyes. He returns, exclaiming, "Missed her!" "Did you?" Jane retorts, wondering what it was all about.

CHAPTER THREE

David suddenly clutched Jane's arm. "Follow that taxi. She's in it—I've got to talk to her!" he commanded in a voice she had never heard him use. "Quick! We've got to catch up with her. Someone stole that envelope she gave me—I think I know who." He all but grabbed the wheel from her. "This may be a question of life and death."

Jane didn't argue. She turned the car, and was off after the taxi. Its red light whirled in and out of crooked side roads. Then Sladen, miles away, she lost it.

David was up from the seat, doubled like a jockey. "Confound it!" he groaned. "Where did they go?"

Jane stopped the car, leaning back. She had enjoyed this chase up to a certain point. "I'm afraid you'll never solve this mystery, Dave," she said. "Mother's waiting, and we're going home."

In the misty darkness, she couldn't see David's face. But he pressed closer to her. His hand squeezed hers. "You were swell, hon," he said.

He didn't blame her; he didn't blame fate. He took things that way when he lost. Jane thought with a surge of tenderness. "I'm sorry, Dave," she said gently, and stepped on the starter. The car wouldn't budge. It was out of gas.

"We'll have to leave this bus and walk to Jo's garage," she told David.

The garage was flooded with lights as they approached. Many cars huddled by. There had been an accident. A coupe was being hauled from a ditch. A long white limousine stood at the entrance between the red gas pumps. At the far end, its evident owner—a dark, well-groomed man, holding an ebony walking stick—leaned at ease against the wall. He smoked a cigar, occasionally speaking to the beautiful woman at his side. She was in evening dress, cloaked in black satin.

David forgot his pursuit of the taxi. He whispered to Jane, "That's Mat Breanu, Broadway big shot. Oh boy, would Slagen give me a raise if I could land him as a customer." And he was off.

Jane held back. She had read about Breanu, of course. He was staring at her. But the blonde with

The man smoked a cigar, occasionally speaking to the beautiful woman at his side.

him fixed her round blue eyes on David.

Jo, the garage man, paused importantly beside Jane, one of Mat Breanu's choice cigars between his tubby lips.

"You and your boy friend don't get around here often, Miss Jane. What can I do for you? We've had quite a time tonight—yep, quite a time!" His cigar performed a trapeze act from one end of his mouth to the other.

Jane colored. Probably everyone for miles around knew about her city beau. "My car's down the road, without gas. Fix her up, will you, Jo?"

"Quick as I can." But Jo's mind wasn't on Jane Rider's car. He waved toward the white limousine. "There's a honey for you," he said. He squeezed the coupe off the road no damage done. But he hands the guy a hundred bucks—just like chicken feed!"

"Well, I suppose he can afford to," Jane murmured, looking at David. She knew the latter was always seizing the chance to get a new customer for Slagen's ultra fashionable sport shop.

David was talking animatedly to Breanu and the round-faced bionide wrapped in black satin, as if he had known them all his life.

But Breanu, swinging his hook-handled ebony stick, continued to stare at Jane. His dark eyes were bold in appraisal. David turned and motioned her to join them, his smile proudly conscious of her.

Jane nodded, but ducked first into a telephone booth. Her mother really might be worried. It must be past seven now. She couldn't tell of the adventuresome time they'd had, but she said something about running out of gas.

"Don't hurry, dear. Kurt asked if he might drop in for supper, but he isn't here yet."

Jane hung up with a sense of dismay. Oh, why did her mother have to let Kurt in, tonight of all times! She stood a moment in the stuffy booth, controlling emotions that

them. He brushed back the responsive red lock which always bothered him. "Jane, dear, Mr. Breanu's swell! He's promised to drop into Slagen's some day."

Mrs. Rubley lifted a ringed hand to her light curls, bunched in a remarkable bang under a close-fitting turban. "Mr. Farland was just going to show us an article in the paper about himself," she said, looking Jane over.

"Why, I didn't know—" Jane checked herself, and caught Breanu's amused glance as he tossed away his half-smoked cigar. What did he take them for, she thought angrily, a couple of kids?

David reddened, fumbling in his right pocket. As usual, he had talked his head off. Now he must produce the goods. "It isn't an article," he said, with less than his regular self-confidence. "Pretty small stuff to you, Mr. Breanu. Just one of those question-and-answer columns. This reporter asked me where I'd rather be."

David gave them his winning smile. "I said, 'On top.' That's all."

"And so you will be," the blonde said, so warmly that Breanu glanced at her, tapping his ebony stick against his dark blue coat.

Death on the Highway

RECENT APPALLING INCREASES IN COLUMBIANA COUNTY TRAFFIC ACCIDENTS SERVED AS INSPIRATION FOR THE FOLLOWING:

Beware of the reaper, for he's never still,
He'll meet you on curves, on the highway or hill,
He sits with the driver who's reckless as hell,
You may be the next one, you can never tell.

Many were killed on the highway this year,
Most of them could be avoided, I hear.
If people were careful and not drive so fast,
But death intervened and won out at last.

Young people desire a dangerous thrill,
When they race other cars and pass on the hill,
They think that they're clever to go on a lark,
And then flirt with death as they speed through the dark.

He is so much wiser, the skeleton with scythe,
For everyone some day is chosen to die.
He uses the highway for horrible wrecks
In beheading bodies and break a few necks.

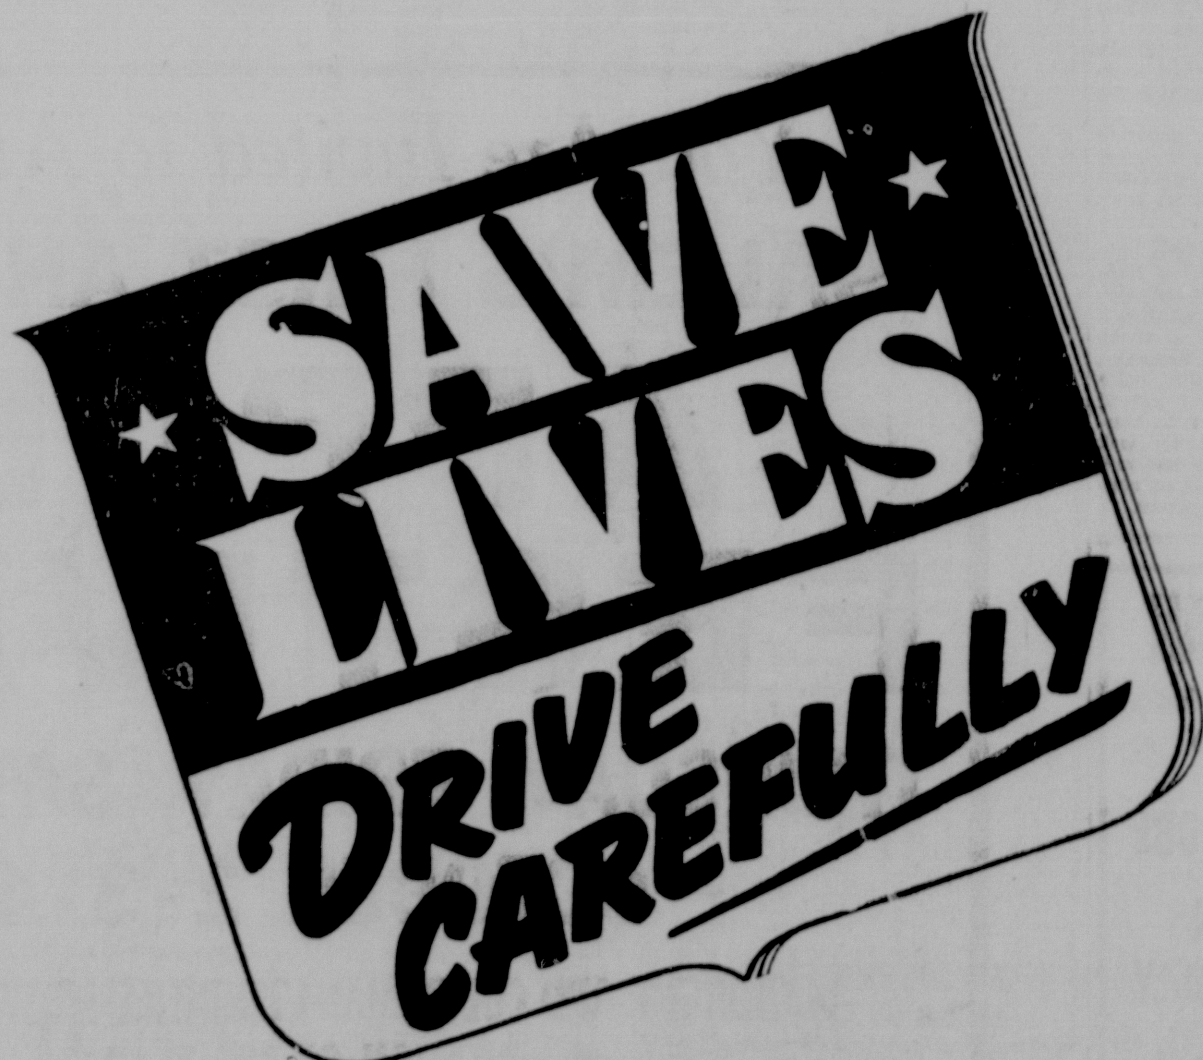

Five-inch splinters are pushed through the skull,
When death's on a rampage, no moment is dull.
Some bodies are twisted into one bloody mass,
The joy rides are ended forever, alas!

A few scalps ripped off as neat as a pin,
The cars are all crushed as if made of tin.
If you ever expect to come home alive
It pays to use caution when out on a drive.

Remember all those who were killed in this way,
And use common sense when you drive night or day
Courtesy always will help cut the number
Of people to rest in eternal slumber.

State Patrol and Police will help in this cause,
They want you to know and respect all road laws.
So you will be safer for many days hence
Because you have used just your good common sense.

— Mrs. J. A. Bower

It is a lamentable fact that many a life and limb have been lost, even though rules and regulations had been followed by both motorist and pedestrian . . . the motorist had not had the extra courtesy, the extra consideration, the extra carefulness which surely would have prevented the catastrophe.

Let us resolve to do more than just obey the law. Let us resolve to make sure that our automobiles are mechanically safe. Let us not depend on luck. Let us not be indifferent drivers, and may these words have the pious power to restrain wild, reckless, inexperienced driving; the pious power to prevent tragedy. Save lives—drive carefully!

Sonja Henie and John Payne are co-starred in a comedy-romance, "Sun Valley Serenade," showing at the State theater tonight and Tuesday. In the supporting cast are Lynn Bari, Glenn Miller and his band, Milton Berle, Joan Davis and the Nicholas Brothers.

The story is light, the entertaining tale of a publicity-seeking orchestra pianist who agrees to take care of a "little refugee" and finds out his charge is an accomplished, clever young woman who upsets his romance with a girl singer and jeopardizes his job and that of the orchestra.

At the Grand theater Tuesday and Wednesday are: "Dance Hall," with Cesar Romero and Carole Landis; and "Murder by Invitation," featuring Wallace Ford, Marian Marsh and Sarah Padden.

The first film is a comedy-romance and the second, a film mystery based on a recent popular book by George Bricker.

Concluding tonight at the Grand are the East Side Kids' "Bowery Blitzkrieg" with Leo Gorcey, Bobby Jordan and Huntz Hall; and "Hurricane Smith" with Ray Middleton, Jane Wyatt and Harry Davenport.

CLEANING COATS ADDS TO SERVICE

Paris Firm's Equipment Designed Especially for This Work

Any doubt that fall weather—the real fall weather—with winter right behind it, is far away was dispelled with the brand of weather turned on today by Mother Nature.

To the women of the family, cold weather means, among other things, a change of wardrobe involving chiefly, a fur or fur-trimmed coat. A winter coat must be just as trim and neat, just as clean, as any other article of apparel. The fastidious woman demands that in all her garments.

In this respect the service of the Paris Cleaners is invaluable. The Paris recently completed a plant remodeling program in which new equipment was installed as a means of further improving Paris service. This equipment includes machines designed specifically for cleaning fur coats and properly preparing them for the season ahead. This serves not only to give the appearance of freshness and newness but also adds months of service to the garment by removing damaging grit and revitalizing the fibers themselves.

Call the Paris now if you have a job of this type.

NEW DODGE TRUCK LINE IS POWERFUL

Numerous Advancements Add Pulling Power and Long Life

Embodying new, more powerful engines and numerous advancements contributing to added pulling power, speed, stamina, long life and economy, a new line of Dodge Job-Rated-trucks announced today excels, not only in power but in efficiency of operation, any line of trucks ever produced by the corporation, according to L. D. Cosari, sales manager, truck division, Dodge Brothers corporation.

Many Improvements
Improvements and advancements in the new trucks, he said, are intended in every instance to enable the vehicles more adequately to meet requirements of the intensive, long-range program of hauling increasing millions of tons of needed goods and materials at the accelerated pace of modern defense transportation.

With power and torque increases unprecedented in Dodge truck history, a 115 horsepower 1 1/2-ton model and a 129 horsepower 1 1/2-ton special are featured as carriers destined, under current government regulations, to shoulder a larger share of the nation's heavy-duty hauling.

The complete new line includes 112 standard chassis and body models, on 18 different wheelbase lengths, ranging in capacities from half-ton pick-up and panel types to heavy-duty gasoline and Diesel powered prime movers.

Improved in numerous and important respects, the new, powerful Dodge-truck-built, six cylinder, high compression engines retain all the well established features that have been proved through years of use.

Protection Against Grit
To help prolong engine life by providing maximum protection against destructive dirt and grit entering the engines are an improved oil bath air cleaner, now claimed to be practically 100 per cent effective, and a redesigned auxiliary air cleaner, mounted on the oil filter cap. A metal-edged fuel filter at the carburetor supplements the filter assembled in the fuel pump, thus offering double protection against foreign matter in the fuel entering the engine.

Oil pump efficiency is assured by use of a floating type oil pump screen.
Other well known Dodge truck engine features which play an important part in economical, capable and dependable performance are: light-weight, lubricated, multi-ring pistons; exhaust valve seat inserts; full-length water jackets; by-pass thermostat; replaceable, precision type main and connecting rod bearings; full-pressure engine lubrication and air-cooled generator.

Clutch housings on models from 1/2-ton through 2-ton capacity have been strengthened through the use of reinforcing ribs, thus giving unusual durability to this unit throughout the entire Dodge truck line.

More Leisure

Men can go away on hunting trips and be sure the home fires are burning when an Iron Fireman automatic coal stoker is installed. Besides a clean basement makes a good place to display guns and trophies. This De Luxe model, Iron Fireman—designed, will hold a full day's supply of coal even in the coldest weather for the largest house.

The management at the Citizens Ice and Coal company, local distributors, can figure the size stoker you need and give you any other information you desire.

Profitable Politics

PORTLAND, Ore.—Someone took exception to those political posters Mrs. Grant Harris displayed on her porch during the 1940 campaign and splattered them with tomatoes.

Now she's harvesting a bountiful tomato crop. The seeds from the missiles sprouted last spring.

60,000 Will See Louis Defend Title Against Nova Tonight

**ODDS ARE 13 TO 5
THAT LOUIS WINS
FROM CHALLENGER**

**Spectacular Fight Looms
As Both Contestants
End Training**

NEW YORK, Sept. 29.—Joe Louis, of the blasting fists, and Lou Nova, a rugged, courageous specimen from California, clash at 10 o'clock (E.S.T.) tonight at the Polo Grounds in a 15-round heavyweight championship fight that promises to have 60,000 spectators limp.

This is one battle that scarcely can miss. Opinion is divided sharply on the probable winner, but there seems no doubt in anyone's mind that it will be a cruel, spectacular engagement while it lasts.

This is one of the few times that the big Negro, Louis, has met a man his equal in physical equipment, fighting heart and absolute confidence since he won the title from Jim Braddock in 1937. Off-hand, only Max Baer among the many who have challenged Louis and taken their beatings appeared on the surface to have as good a chance as Nova against the Bomber.

Nova belongs in there tonight on his record. He knocked out Max Baer twice, among other things, and had Tommy Farr on the verge of a knockout in the closing rounds of their scrap. Only some peculiar interference by the referee saved Tommy, who only shortly before that had breezed 15 rounds against Louis.

Only Beaten Once

The one time Nova ever was beaten as a professional was the night he climbed into the ring, a sick man, against Tony Galento in Philadelphia.

The bookmakers do not share Nova's confidence in his destiny. At last check-up they were offering a bonus of 13 to 5 that he catches a licking from Louis. Anyone wanting to bet on the champion was asked to put up \$13 to win \$5. It is one of the biggest betting fights, they say, since the days of Jack Dempsey.

While many observers, including this writer, have picked Nova to win, it must be admitted that they have done so with some foreboding. They aren't obnoxious about it, and they usually wind up with a cautious... "If Joe doesn't slaughter him in the first round."

Physically, there is almost nothing to choose between them. Both are just over 200, generally considered an ideal weight for heavyweights, and they are of almost equal height.

The only cloud was, literally, the threat of light showers during the evening. The very thought was painful to promoter Mike Jacobs, who had a safe practically bursting with fresh money and was talking to himself, with gestures, if a postponement is necessary, it would be put back to Wednesday night, which would run the fight smack into the World Series. The postponement would be for 48 hours because of Yom Kippur on Tuesday.

Blue Sox Split In Columbiana Games

The Salem Blue Sox yesterday split a doubleheader with Columbiana at Firestone park. The Blue Sox led by home runs by Kenst and Reash, walked out by a 12-4 triumph in the first game but lost the second, 11-4, as Wukotich turned in a two dagger 10th...

The two teams will have a play-off next weekend in Columbiana. Wukotich was the winning pitcher, allowing seven hits as his mates collected 13 from Bowen. Allen pitched the losing game.

Meet for Title in New York

Joe Louis

Lou Nova

Breezy Briefs Of Sport From Brietz To You

By HUGH FULLERTON, Jr.

NEW YORK, Sept. 29.—Going way out on an overloaded limb, this department hereby picks Louis to knock out Nova in 10 rounds or less.

All right, maybe Joe has slipped a little, but in 54 fights the only guy that ever stiffened him was Schmeling and the only one who has come near to licking him lately was Conn. Nova isn't a Conn or even a Schmeling when it comes to defending himself, so even if Joe can't toss a punch quite as fast as he used to be going to hit Lou and hit him hard. . . . That's usually enough. . . . If it isn't, Joe isn't bad at avoiding a sock.

Monday Matinee

Louis turned down a ticket to his own fight the other day with the remark, "I won't need a seat. I expect to be on my feet all of the time." "Boys wear, men's wear and five Brooklyn Dodgers" was the elevator boys' cry the other day when some of Dem Bums spent a day off autographing baseballs in a Manhattan department store. . . . Don't worry about Pete Reish's arm. Dr. Frank Glenn, who was called in to look it over when it first snapped, asked Pete how he felt and then decided to stay and see the ball game before going to the hospital for X-rays.

Today's Guest Star

Tom Sweeney, Worcester (Mass.) Evening Gazette: "He's a true Brooklynite. If he cures the Dodgers as wildly as he cheers 'em. . . if he thinks that the greatest and most colorful player who ever lived was 'The Babe'—only he means Herman, not Ruth. . . if his idea of paradise is herring for supper and a newspaper telling how the Bums won and Durocher was thrown out of the game."

Cleaning The Cuff

On a radio quiz program Saturday when a guy missed his answer, the M. C. said if he'd make a one-minute speech knocking the Dodgers he'd get a free ticket to the series. . . . The guy walked right off with the late announcement that he wouldn't knock the Dodgers for 30 tickets. Ed Dana, forth of the Atlanta Journal, who had the courage to predict Vanderbilt might knock off Purdue, added: "If they do that little thing, don't nominate them for the Rose Bowl, either."

MINNESOTA AND STANFORD LOOK GOOD TO BARKER

**Crystal Gazer Sees Them
As Nation's Leaders
In Football**

By HERB BARKER.

NEW YORK, Sept. 29.—Put down Minnesota and Stanford in your football book once more as potential champions and, even at this early date, figure on keeping close watch on Tulane, Duke, Texas, Navy, Georgetown and Notre Dame. And don't waste any tears on Harmon-less Michigan.

Defeat for some of these may be no farther away than this week but the finger points to them on the basis of their exploits on the first big program of the new season.

Minnesota, rated the No. 1 team in the country last year, started off a new campaign last week by whipping Washington's Huskies, Pacific coast power, 14-6, as Bruce Smith scored both Gopher touchdowns and generally comported himself like the All-America he is touted to be. Minnesota will be idle this week but Stanford, which just got past tough Oregon, 19-15, thank mainly to All-America Quarterback Frankie Albert, will play U. C. L. A.'s Bruins, U. C. L. A. best Washington State, 7-6, in its opener.

Tulane looked tremendous in an easy 21-7 conquest of Boston college, Sugar Bowl champions and an unbeaten, untied array in 1940. Next opponent for Tulane is Auburn.

Notre Dame, uncovering a fine passer in Angelo Bertelli during last year's 38-7 rout of Arizona, this week even though the Hoosiers dropped a last-minute 14-7 decision to Detroit, Michigan's Wolverines tackle Iowa after handing Michigan State a neat 19-7 trouncing. Iowa warmed up with Drake, 25-3.

Longhorns Meet Tigers

Dana Bible's Texas Longhorns, who brushed aside Colorado, 34-6, may find Louisiana State's Tigers harder to digest although the Tigers were beaten by Holy Cross, 19-13. Georgetown, conqueror of the highly-rated Mississippi, 16-6, should have no worries with Virginia Tech, trounced by Kentucky, 37-14. Navy, which lived up to its advance notices in a 34-0 rout of William & Mary, faces West Virginia.

Intersectional games are heavily stressed this week. Paul Brown's Ohio State Buckeyes, who outplayed Missouri, 12-7, tangle with Southern California, 13-7, victors over Oregon State. Purdue, tripped by Vanderbilt, 2-0, moves eastward to play Pitt. Fordham, virtually certain to be a championship factor in the east, makes its first start against Southern Methodist.

Other games include: Penn and Harvard at Philadelphia; Cornell plays Syracuse and Columbia meets Brown. Princeton and Dartmouth play members of the "Little Three," the Tigers battling Williams, while Dartmouth engages Amherst. Colgate, with a fine team in the making, plays Penn State at Buffalo.

Midwest: Northwestern makes its debut against Kansas State, held to a scoreless tie by Fort Hays Teachers. Wisconsin opens against Marquette and Illinois against Miami of Ohio.

Fighting Irish Triumph Over Arizona In Opener

SLAPNICKA QUILTS, TRIBE LOSES, AS SEASON FOLDS UP

**Former Scout's Resignation
Announced: Browns hand
Indians 5-4 Defeat**

CLEVELAND, Sept. 29.—The club which came out of the grapefruit belt last spring as the experts' choice in the American league has finished at the bottom of a crowded first division and is looking for a new general manager. Thus ended the Indians' 1941 season.

The St. Louis Browns gave Cleveland a 5 to 4 licking in the final game yesterday to cut the Indians out of an undisputed fourth place.

There may have been a touch of irony in the fact that the Detroit Tigers, in losing to the third-place White Sox yesterday, also wound up in fourth place, with 75 victories in 154 games. Last year the Tigers took the league championship away from the Indians by a single game.

The resignation of Cyril C. Slapnicka as vice president and general manager of the club was turned in last Wednesday, but did not become known until the final day of the season.

President Alva Bradley said last night he had made no moves toward the selection of Slapnicka's successor.

Slapnicka, an outstanding pitcher with Milwaukee from 1912 to 1918, became a Cleveland scout in 1923.

He found a good many of the players who have starred on Cleveland teams of recent years, including Willis Huddell, Mel Harder, Earl Averill, Hal Trosky and Ken Keltner. In 1935 he succeeded Billy Evans, now general manager of the Cleveland Reds of the National professional football league, as general manager of the Indians.

One of his prize finds may be absent from the Tribal lineup next season, for Bob Feller will be inducted into selective service before the dependency of his parents.

Feller finished the season with 25 victories, the best mark in the major leagues, but two under the number he achieved last year.

Duck Hunters should Check Sunrise Time First Thing

COLUMBUS, Sept. 29.—Memo to duck hunters: Check your weather bureau for the official time of sunrise in your locality before sallying into the marshes before daybreak Wednesday.

The federal government specifies that ducks may not be shot before sunrise.

Several hunters who thought daylight meant sunrise were arrested last year.

The Ohio conservation division announced today that its game protectors would be governed by the official sunrise as announced by the weather bureau in each vicinity.

efforts of two men to break down
her apartment door.
Doyle recounted that Mrs. Miley
told him the men asked her where
the receipts from Saturday night's
dance were located. She told them,
whereupon one of the men struck
her in the head with a window
weight, knocking her down, and
then fired three shots into her
body.

Rushes To Aid Mother

Miss Miley rushed from her room
to lend aid to her mother, Doyle
reported, and was shot down. Her
palma clad body was found in the
hallway.

Harrigan theorized the shooting
and robbery may have been com-
mitted by persons familiar with the
set-up at the swanky building and
grounds.

The only clues available, Harrig-
an said, were two buttons from a
man's coat, three slugs from a .32
caliber automatic and several fin-
gerprints on the wall near the
Miley's apartment.

Fred Miley, husband of the
noted woman and a golf pro-
fessional at the Maketewah Coun-
try club at Cincinnati, hurried here
after being told of an "accident"
at the Lexington club.

SPLIT ON PROGRAM FOR SHIP ARMING

Congress Uncertain As To
How Far President
Will Go

was expected to be reached to-
morrow when the President confers
with legislative leaders. The White
House message on the neutrality act
is looked for about Wednesday or
Thursday.

Several legislative leaders were
reported ready to recommend that
revisions be limited to the
arming of merchant ships.

They said that there would be a
fight over that single issue and
that to seek other modifications
would make the Democratic leaders'
task all the more formidable.

Rep. Mundt (R-SD), house for-
eign affairs committeeman, pre-
dicted, however, there was a strong
chance that even the arming of
merchant ships might be defeated
in the house.

But Rep. Luther A. Johnson (D-
Tex.), senior majority committe-
man who helped write the original
neutrality act, expressed belief
that the house would accept its
complete repeal except for a section
which provides for the licensing
of shipping of arms and munitions
to foreign countries.

SOUTH IS NORMAL AS WAR GAMES END

LAKE CHARLES, La., Sept. 29.—
Louisiana began returning to nor-
mality today after enjoying two
weeks of simulated war in the
army's greatest field exercises, and
the 400,000 troops on maneuvers
turned from tactics to the sched-
uled strife between the Yankees
and the Dodgers.

From Shreveport in the north-
west corner of the state, where the
last four-day battle between the
Second and Third armies ended
yesterday, to Lake Charles in the
southwest, the field soldiers took it
comparatively easy today.

They were under orders to stay in
tents in woods and fields until de-
tailed march orders were issued
returning them to home stations
across the southern states from the
Atlantic coast to Texas. For six
weeks the 400,000 men have been
constantly in the field.

Furloughs were to be issued to many
of the men. Special war department
regulations provide that as many as
50 per cent of a command might
be granted vacations. Soldiers
can get 15 days off after six months
of service.

In the last battle problem, the
Third army, commanded by Lieut.-
General Walter Krueger, crashed
through Second army defenses at
Shreveport, culminating a 36-hour,
160-mile drive by the second ar-
mored division and the second in-
fantry division.

Woman Golfer Killed by Bandits

Marion Miley, (above) noted woman golfer, was shot and in-
stantly killed and her mother, Mrs. Fred Miley, critically wounded by
two bandits who invaded their apartment in the Lexington Country
Club, Lexington, Ky., early Sunday. Police said the bandits knew
that Mrs. Miley, manager of the country club, had receipts from a
Saturday night dance. When the thugs knocked Mrs. Miley down,
her daughter ran into the room. She was shot twice through the
head. The bandits then shot Mrs. Miley and escaped.

Norway also was under close Ger-
man watch. More than 1,000 per-
sons were reported arrested there
since the start of the state of civil
siege decreed Sept. 10 to halt the
spread of strikes and sabotage. In
many of the towns affected the
state of siege later was relaxed but
production and Norwegian activi-
ties remained under close atten-
tion.

Italy, bearing with the reich the
task of keeping Axis order in south-
eastern Europe, had its troubles in

slavia.

Fifty Are Executed

The first big outbreak reported
there, bombing of the telephone
exchange at Zagreb, has been fol-
lowed by 50 executions, but these
failed to halt the spread of violence.

At least 300 Serbs have been re-
ported killed in mountain fighting
with the small army the Axis al-
lowed Croatia to organize.
The Germans made no immedi-
ate announcement of executions.
The Czech report that General
Vojty, army commander at Brata-
slava, Slovakia, had been put to
death followed a British broadcast
which said an attempt had been
made to assassinate Bela Tuka,
Slovakian premier.

A spokesman at the Slovak le-
gation in Berlin, however, termed
the report of the assassination at-
tempt a "childish lie" and said the
legation had been in communica-
tion with the premier by telephone
last night.

LAUSCHE, BLYTHIN SEEN AS NOMINEES

CLEVELAND, Sept. 29.—Bringing
to a close one of the dullest primary
campaigns in the memory of the
political sages, Cleveland's voters
will choose two candidates for
mayor tomorrow in non-partisan
balloting.

Frank J. Lausche, who resigned
as common pleas judge to enter
the race, and Edward J. Blythin,
the incumbent, are named by the
experts as the probable nominees.
Political writers for the city's three
major newspapers are agreed that
any other result would be an upset.

Congressman Martin L. Sweeney,
former Supreme Court Judge Arthur
H. Day and Arnold S. Johnson are
their opponents.

All predictions are for a close
vote but the strength of the politi-
cal organizations will be watched
closely for any signs of political
tides affecting independent voters
registered and eligible to vote at
433,785 citizens.

Lausche and Sweeney are Dem-
ocrats, Blythin and Day Republi-
cans. Johnson is sponsored by the
Communist party, and although
none of the political observers ex-
pect him to win enough votes to
threaten the other candidates, they
will be watching the number of bal-
lots as an indication of a trend in
Communist support.
